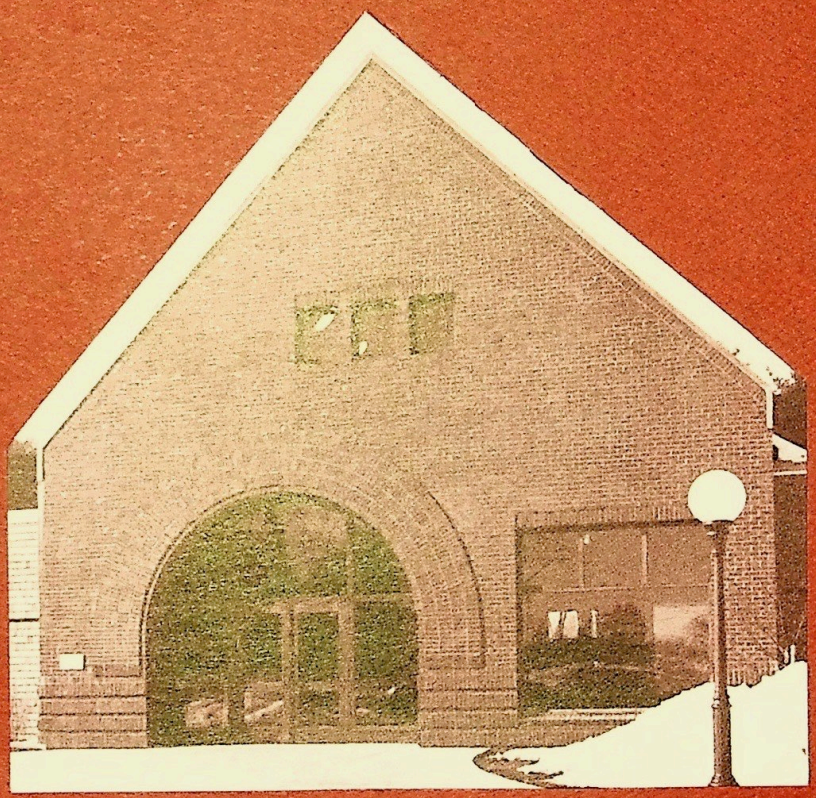
ANNUAL REPORT
of the
Town of SCARBOROUGH
1990



for the period July 1, 1989 to June 30, 1990

On January 28, 1990, the ribbon was cut to celebrate the opening of the new Scarborough Public Library on the Gorham Road. The 12,000 square foot facility was built with a budget of $1.5 million with $900,000 raised from contributions and pledges.

Scarborough Public Library

The "Superior" Award reproduced below was received by the Town of Scarborough as commendation in the Maine Municipal Association's 1989 Annual Report Competition. The 1989 Annual Report won this award for its presentation and communication with the citizens of Scarborough.

LETTER OF TRANSMITTAL

TO THE HONORABLE TOWN COUNCIL AND CITIZENS OF THE TOWN OF SCARBOROUGH:

It is with great pleasure that I herewith submit the Annual Report for the year 1990, in accordance with the provisions of the Charter of the Town of Scarborough.

CARL L. BETTERLEY
Town Manager

Detailed reports of the Town's business, including the audit report for the year 1990, will be found in other sections of this report.

This past year has been both the busiest and most difficult of the twenty years I have been a Town Manager. Highlights of 1989-1990 include the completion of the additions and renovations to the High School, the Public Safety Building and the construction of the new Public Library.

Although the 1989-1990 fiscal year saw the completion of these projects, which have resulted in greater efficiency within departments and increased use of services by the public, one of the primary concerns of the Town Council, Town employees and Citizens alike has been the increasing property tax. In recent years, the Town's department heads have often expressed a view which I share; the budget process is not a once a year effort, but something we continue to work on throughout the year. Never has this philosophy been more critical.

Local elected officials also have never been under greater pressure. Mandates, both state and federal, continue to be passed on to local governments but without the sufficient revenues to carry them out. At the same time, citizens also ask for increased services at the local level. Currently our State relies heavily on the property tax to fund local government. The property tax in Maine collects more revenue than either the State sales tax or the State income tax. If municipalities are to continue to provide vital services within people's ability to pay, then the State has to provide municipalities access to these other revenue sources.

The Maine Municipal Association provides some statistics which I feel are important to consider as we look to the future:

- ❑ Since 1980, property taxes in Maine have increased 125%.
- ❑ During the past five years, the cost of education in the State of Maine has nearly doubled.
- ❑ In less than ten years the cost of solid waste disposal has gone from next to nothing to more than $50.00 per ton.

It is time for you, the Citizen, to join with your local officials to communicate to our State and Federal Legislators the need to stop increasing the burden on the property tax and to stop passing unfunded mandates which affect local property taxes.

I urge you to contact your Town Council members to see how you can assist in reversing this increasing trend towards heavier reliance on the property tax by State and Federal governments.

I wish to take this opportunity to express my sincere appreciation for the support and cooperation of the Town Council, Department Heads and fellow employees this past year. One of my greatest rewards as your Town Manager has been the willingness of you, the Citizens, to serve your community in so many ways.

I thank the residents of Scarborough for their interest and support of the Town Government and urge them to continue this activity.

Respectfully submitted,
Carl L. Betterley,
Town Manager

EXPENDITURES & REVENUES:

- **SEDCO**
- **TOWN CLERK**
- **ZONING**

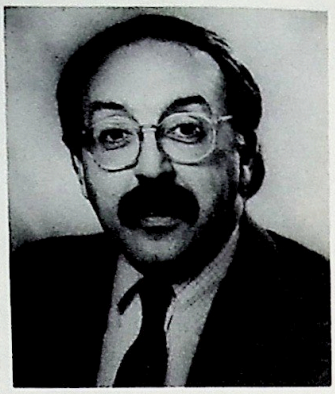
"The marshes were a very valuable asset in the early times. They produced large crops of hay which, though somewhat salty, furnished winter support for the cattle. No cultivation was required. It could be cut and stacked on "straddles" to keep it above the flow of high tides and taken to the home barns on the first snow. Sometimes it was loaded on gundalows and floated to the Landing, and there cured and hauled away in summer."

Grandfather Tales, 1925, Augustus F. Moulton

Report of the

SCARBOROUGH ECONOMIC DEVELOPMENT CORPORATION

July 1, 1989 to June 30, 1990



Harvey Rosenfeld,
President SEDCO

SEDCO

SEDCO (Scarborough Economic Development Corporation) was incorporated in 1985 by the Scarborough Town Council as a non-profit development corporation to manage its economic development program.

Its mission is to:

(1) market the existing Scarborough Industrial Park;
(2) promote general business attraction and retention;
(3) coordinate the Scarborough Route One Revitalization Strategy;
(4) assist with the proposed Maine Turnpike Connector;
(5) coordinate the town center project;
(6) research future land development potential;
(7) grantsmanship;
(8) coordinate the Eight Corners Sewer Project Tax Increment Financing District.

To the Town Manager, Town Council and Citizens of Scarborough:

As the Scarborough Economic Development Corporation enters its sixth year of providing economic development services for the Town of Scarborough, we find ourselves faced with a challenging economic climate that will require ingenuity and diligence to maintain and expand the economic base of the community.

The past year has seen a shift in our role of not only assisting new businesses interested in locating in Scarborough but expanding our efforts with existing businesses in need of new facilities, expansion capital, assistance with government agencies, etc. The SEDCO Board of Directors considers retention and expansion of existing businesses to be of primary importance in maintaining the employment and industrial tax base of the community.

To these ends SEDCO, in cooperation with the Scarborough Chamber of Commerce has undertaken a program to survey the needs of area businesses as a first step in an expansion and retention program in order to insure that our work program meets the needs of area businesses. SEDCO is an active participant in programs by the Greater Portland Chamber and the Maine Chamber of Commerce and Industry that assist business and industry.

In the coming year SEDCO will become the primary marketing agent for the Scarborough Industrial Park and will be active in assisting in Town projects such as the new Turnpike exit. We will continue to ferret out capital sources for new and expanding businesses to continue our successful efforts of the past year.

SEDCO will continue to work closely with the Town Council, Manager, and staff to insure quality industrial and commercial development continues in Scarborough. I would also hope that business people not familiar with SEDCO would contact us, to see if we might be able to assist them with their plans for the future.

Respectfully submitted,
Harvey R. Rosenfeld, *President*

Report of the

ZONING BOARD OF APPEALS

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

There were 68 appeals heard by the Scarborough Zoning Board of Appeals during the fiscal year 1989-1990.

Fifty-three appeals were approved, nine were denied and six were tabled or withdrawn. Of the 68 appeals heard, 39 were Variance Appeals, nine were Miscellaneous Appeals, 19 were Special Exception Appeals and one was an Administrative Appeal.

Respectfully submitted,
William Barber, *Chairman*

TAXPAYERS OF SCARBORO

WATCH OUT!

"Are you willing to mortgage your homes to help pay for a $75,000 High School building, or will you vote against such extravagance? The Town Reports show that in 1913, the tax rate was $13.40; in 1925, $36.00. What will it be in 1926, if the town borrows $75,000 to build a new High School building which is only the beginning of the expense? Remember interest on the $75,000 must be added to the loan, which, for a term of years, is no small sum."

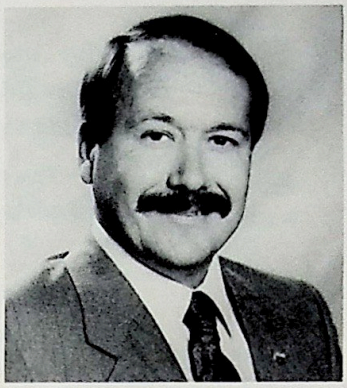
Reckon it and see!

Selection from Citizen Tax Reform Group Flyer, circa 1925

Report of the TOWN ASSESSOR

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:



Paul G. Lesperance,
Town Assessor

It is a pleasure to submit to you the annual report of the Assessor's Office for the fiscal year 1989-1990.

This year the tax rate was set at $30.50 per thousand dollars of value based on a taxable valuation of $376,539,400. The tax rate increased by 8.92% and funds raised from property tax increased by 16.6%.

The "Eight Corners" tax increment finance district had a captured assessment of $2,391,500 and a tax of $72, 940.75 and the "Town Center TIF" had a captured assessment of $3,238,800 and a tax of $98,783.40.

Because of the ever increasing burden of the property tax the subject of property tax relief has been a major concern to all involved in taxation from the local level on up to the state level. Many different solutions to the problem of high taxes are being discussed from "circuit breakers" to "homestead exemptions" for direct taxpayer relief, to increased state revenue sharing to ease some of the town's budget burdens. Up to now very little has been accomplished for any measurable relief but hopefully 1991 will bring some good news for the taxpayer.

Work on the revaluation is progressing and should be completed for the 1991 assessment year. The new assessment will approximate current market conditions for all real estate and personal property assessed in the town of Scarborough. The town wide equalization of assessments will affect all taxpayers differently. For some the new assessment may mean a higher tax and for others it may mean a lower tax burden. It is difficult to predict the outcome until all the work is completed.

As always, our office is open to you for any questions you may have concerning property taxes for the Town of Scarborough.

Respectfully submitted,
Paul G. Lesperance CMA, *Town Assessor*

EXCISE TAX OFFICE REPORT

Respectfully submitted,
Marion L. O'Roak
Excise Tax Agent

AUTOMOBILE EXCISE:	**1990**	**$1,907,591.22 / 14,366 transactions**
	1989	$1,837,395.54 / 14,149 transactions
BOAT EXCISE:	**1990**	**$19,960.65**
	1989	$18,416.75

TAB FEES:	Automobile	Boat	Snowmobile	ATV (All Terrain Vehicles)
1990	**$37,678.00**	**$3,123.25**	**$535.00**	**$225.00**
1989	$34,782.00	$2,893.00	$397.00	$257.00

"The beginnings of Scarboro in a legal way date from the patent of November 1, 1631, given by the Council of New England, otherwise called the Council of Plymouth, to Captain Thomas Cammock of fifteen hundred acres of land on the East side of the Black Point River. This patent is found in York Registry of Deeds, Book 2, Page 87."

Grandfather's Tales
1925, Augustus F. Moulton

Report of the TOWN CLERK

July 1, 1989 to June 30, 1990

Laurel R. Nadeau,
Town Clerk

To the Town Manager, Town Council and Citizens of Scarborough:

It is with pleasure that I hereby submit to you the residents of the Town of Scarborough, the Scarborough Town Council and the Town Manager, a report from the Town Clerk's Office, for the twelve month period, July 1, 1989 through June 30, 1990, for your approval.

A general Election and the Municipal Election were conducted November 7, 1989.

A Primary and Municipal Referendum were conducted on June 12, 1990.

The Town Council held 24 regular Council Meetings along with 1 Special Council Meeting during this period.

A total of 30 Public Hearings were also conducted by the Town Council during this time.

A total of 163 marriages, 78 deaths and 186 births were recorded in this Office throughout this period.

The following licenses were issued by the Clerk's Office for the Fiscal Year, July 1, 1989 through June 30, 1990:

8 Junkyard Permits, 1 Sanitary Landfill Permit, 73 Victualer's Licenses, 452 Dog Licenses, 4 Kennel Licenses, 36 Burial Permits, 600 Certified Copies, 2,656 Hunting & Fishing Licenses, 5 Pinball Machine Operators Licenses, 3 Mobile Home Park Operators Licenses, 125 Residential/Non-Residential Recreational Clam Licenses (1 Peck per day limit), 22 Commercial Clam Licenses.

Respectfully submitted,
Laurel R. Nadeau, *Town Clerk*

"The passing years have brought about altered conditions in the town. Hotels and summer visitors have rejuvenated Black Point and the seashore. The electric cars have to some extent again awakened Oak Hill and Dunstan, but farms are not profitable and the Over the River district has not maintained its former high estate."

Grandfather's Tales
1925, Augustus F. Moulton

Report of the
CODE ENFORCEMENT DEPARTMENT

July 1, 1989 to June 30, 1990

Report of the TOWN PLANNER

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

Joseph Ziepniewski,
Town Planner

It is with great pleasure that I submit my annual report for the year ending June 30, 1990. The past year has been busy and interesting. Most of my time has been spent meeting with people interested in developing property in Scarborough, reviewing plans, reporting to the Planning Board and overseeing Code Enforcement and Engineering.

During the past year, administration of the Land Use Regulations led to the review of four residential developments, 21 commercial/industrial projects, three public/quasi-public projects, one zone change request and nine Miscellaneous Appeals. During the past year the Planning Board approved residential proposals for 35 single family homes and 120 hotel rooms.

The Planning Department also spent time working on comprehensive planning and zoning for the year round turnpike access and Route One traffic and land use.

Much has been accomplished for which I would like to thank my co-workers: Ken Dinsmore, Assistant Town Planner and Engineer; Bill Weeks, Code Enforcement Officer; Phil Coolbroth, Assistant Code Enforcement officer; Carole Bristol, Secretary; and elected and appointed municipal officials.

Respectfully Submitted,
Joseph F. Ziepniewski, AICP, *Town Planner*

Report of the CONSERVATION COMMISSION

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

The nationally increasing interest in conservation matters over the past year was reflected in Scarborough through a poll conducted by the Conservation Commission on Election Day, November, 1989. The results of the poll indicated that a large majority of Scarborough citizens are seriously concerned with the rate of development in the Town, and the impact this development has on our open space. In addition, over 90% of some 750 plus people who were polled indicated that a member of the Conservation Commission should serve on the Long Range Planning Committee. This suggestion has been passed on to the Town Council for their consideration.

During the course of the past year, the Conservation Committee concerned itself at twice monthly meetings with the problems of maintaining open space, researched and commented in writing to the Town Council on requested zoning changes, and completed a mapping project of public land in the Town. We also had input to the Town Council on development projects which we believed had environmental concern. Members of the Commission attended a seminar under the sponsorship of the Maine Association of Conservation Commission, whose primary purpose is to keep all commissions up-to-date on what is happening in different parts of the State and to advise them on pending and newly enacted legislation.

During the past year, the Committee also supported Coast Week with a public slide show on the Scarborough Marsh, as well as having as a speaker, Richard Baker, Shoreland Zoning Coordinator, who discussed shoreland zoning changes of 1989. We arranged for Bruce Anderson to speak on environmentally safe products, which was aired on Cable TV. We are currently working with the Biology Department at the High School with regards to *Coast Week 1990* on environmental issues. We hope to be able to present a show to the citizens of Scarborough via cable TV during Coast Week in September.

In closing, we would like to encourage residents of Scarborough to participate in our meetings, which are held the first and third Monday each month at 7:30 pm. We are sure that many people in Scarborough have concerns on environmental matters in the Town. We would like to hear from them.

Respectfully submitted,
John Carver, *Chairman*

PUBLIC SAFETY

reports from: BEACHES
FIRE
POLICE
PUBLIC WORKS
WEIGHTS & MEASURES

"In considering the road systems of the lower part of the town, one must take into account the extensive marshes with crooked streams, subject for quite a distance above Dunstan to the ebb and flow of the tide. The tidal rise and fall is nearly ten feet, so that the Owascoag and other streams that unite into the estuary called Scarboro River were often overflowing full at high water, and the marsh and water ways that divided the town into the first and second parishes were quite impassable without boats."

Grandfather's Tales, 1925, Augustus F. Moulton

Report of the FIRE DEPARTMENT

July 1, 1989 to June 30, 1990

Robert Carson,
Fire Chief

To the Town Manager, Town Council and Citizens of Scarborough:

It is with pleasure that I submit the annual report for the Scarborough Fire Department for the year ending June 30, 1990.

The Scarborough Fire/Rescue Department again has experienced an ever-increasing request for service, which totaled an unprecedented 1552 incidents during the fiscal year. We are pleased with the positive impact providing day drivers in our fire stations has had on the protection of our community. These day drivers have also provided valuable assistance to our volunteer day responders.

We also must request additional personnel until we have full coverage on our units during the day. The Town of Gorham will share the cost of the operations of the North Scarborough Station.

During the 1989-90 year, the Town of Scarborough underwent an evaluation of its fire insurance classification which measures the fire protection level of the Town. The Scarborough Fire Department was awarded a class reduction by the evaluating insurance service from a Class 5 to a Class 4. This reduction means that the Town's protection class has improved. We are also nearly at a Class 3 and are continuing to pursue obtaining this classification level. This rate reduction has a positive economic impact on insurance rates on a town-wide basis.

Respectfully Submitted, **Robert Carson,** *Fire Chief*

SUMMARY OF FIRE INCIDENTS

YEAR ENDING June 30, 1990:

First Alarms sounded	628
Second Alarms sounded	0
General Alarms sounded	0
Rescue Alarms sounded	924
TOTAL	**1552**

"The Scarborough Fire Department is a "call" or "volunteer" department with growing responsibilities and diminishing manpower. We need new members to maintain the very cost effective service.

The department is again making a community appeal to Scarborough residents to consider becoming associated as a volunteer with the Fire Department.

Come visit, talk with us; your involvement is invaluable and definitely needed."

Robert Carson, *Fire Chief*

Report of the POLICE DEPARTMENT

July 1, 1989 to June 30, 1990

Hollis G. Dixon,
Chief of Police

To the Town Manager, Town Council and Citizens of Scarborough:

It is with great pleasure that I submit the annual report of the Scarborough Police Department for the fiscal year 1989-1990.

This particular fiscal year started off with an air of excitement and feelings of positive expectations because we had just moved into our new police station. The first few months were filled with many activities associated with moving into our new quarters and finally we were able to hold an "Open House" on November 26. Several hundred residents stopped in to see our beautiful new facility and we enjoyed telling them about the things we are doing.

With our new, more spacious facility, we found many opportunities to expand and enhance our operational capabilities. We expanded our computer system and even tied in our booking procedures so that our arrest records cross-file with our complaint files. Additionally, we upgraded our programs which deal with such things as payroll, parking tickets, billing, inventory, budgeting, personnel records and correspondence. In our new lab, we built a chemical fuming tank to enable us to raise fingerprints on numerous (hard to process) articles which are often found at crime scenes. We also set up several other evidence processing systems in the lab.

Unfortunately, we experienced a couple of serious setbacks during the year. First, we experienced a set back in our new drug education program in the schools. The DARE program had to be temporarily canceled because of the problems which developed due to the asbestos removal project. This program will be reinstituted in the upcoming school year. Secondly, we ran into many delays in the purchase of police cruisers which required some adjustments in our rotation of cruisers on patrol. The end result being that we received our new cars five months later than planned.

On a more positive note, the Department's Physical Agility Program was greatly improved with the availability of our new exercise room. For the first time, our officers had a place to work out on a regular basis and it resulted in marked improvement in our personnel. Additionally, we were able to fill the position of Animal Control Officer by hiring Anne Gurney, an individual with a degree in Biology and who possesses both interest and experience in dealing with and caring for animals. During her first year on the job, she has done an outstanding job.

D.A.R.E.®

The DARE Program (Drug Abuse Resistance Education) is a group of lessons designed to help kids resist the pressures to use drugs. The program covers different types of drugs and their harms, but more importantly, it discusses the reasons why people use drugs.

Some of the topics discussed are: peer pressure, stress, media influences, and the consequences of drug abuse.

Alternatives for using drugs and different support systems are also stressed.

The core program is designed to be taught to fifth and sixth grade students. Officer David W. Grover of the Scarborough Police Department is the certified D.A.R.E. instructor for the Scarborough schools and is also the Youth Aid Officer. He is a graduate of Portland High School and Stonehill College, where he received his BS Degree in Criminology and Psychology.

▼ PUBLIC SAFETY TIPS

You can reduce the danger of fire in your home dramatically by taking a fire safety tour of your home right now, looking for fire hazards noted below.

✓ Check electrical cords and plugs for cracks or frays; don't overload outlets.

✓ Make a habit of seeing that matches & lighters are out of children's reach.

✓ Portable heaters should be kept 3' from combustibles & away from doorways and other traffic paths.

✓ Make sure your coal or wood stove is installed properly; the fire department will be happy to take a look & don't forget to have your chimney cleaned if it has not been done already.

Make your home fire safe and your family safety aware.

✓ Install smoke alarms on every floor of your house; check the batteries once a month.

✓ Fire extinguishers are best located in visible areas on every floor of your house, including the basement and attic.

✓ Make an escape plan for your family in case of fire. Plan two escape routes from each room. Agree on a meeting place outside. Practice escaping, with fire drills at least every six months. Share the plan with babysitters.

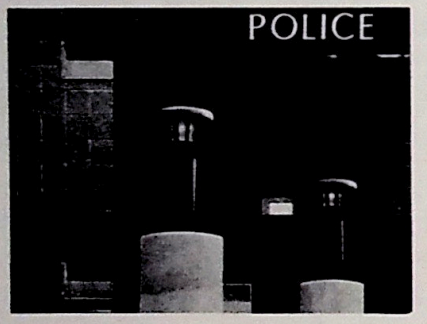
✓ It's particularly important to teach young children that they can't hide from fire, but they can escape.

✓ Check the kitchen area for fire hazards and practice kitchen safety.

POLICE DEPARTMENT REPORT *continued from page 15*

In summation, having moved into its new headquarters, the Scarborough Police Department, during Fiscal Year 1989-1990, took some giant steps toward modernizing its operational procedures and improving professionalism throughout the department. I believe that every member of the department feels much more positive about their day to day work and about our ability to provide the police services which are needed by the community. We also appreciate the continuing spirit of cooperation and assistance which we receive from the other town departments, particularly the Fire/Rescue Department and the Department of Public Works. We sincerely thank them.

Respectfully submitted,
Hollis G. Dixon, *Chief of Police*



Operationally we had another busy year with slight increases in some categories of complaints. The following figures are offered to show some of the activities of our patrol officers and detectives:

TRAFFIC LAW ENFORCEMENT

	1989-90	1988-89
Motor Vehicle Accidents	896	834
Traffic Summonses	2,806	2,973
Traffic Arrests	552	622
O.U.I. Arrests	196	167
Juvenile O.U.I. Cases	2	6
Warnings Issued	3,144	3,826
Defects Issued	1,840	2,903
Total Motor Vehicle Stops	**8,188**	8,725

CRIMINAL INVESTIGATIONS

	1989-90	1988-89
Total Index Crimes	675	641
Index Crimes Cleared	241	254
Adult Arrests	154	132
Juvenile Arrests	46	56
Value of Property Stolen	$343,298	$421,652
Value of Property Recovered	$92,912	$150,828

TOTAL COMMUNICATIONS CARDS – 19,437

Report of the Sealer of WEIGHTS and MEASURES

July 1, 1989 to June 30, 1990

F. Herbert Wentworth

To the Town Manager, Town Council and Citizens of Scarborough:

It is with pleasure that I submit my Annual Report for the year ending June 30, 1990.

Sealed and checked: 89 scales
110 gas pumps
five (5) kerosene pumps.

Respectfully submitted,
F. Herbert Wentworth, *Sealer*

Report of the PUBLIC WORKS DEPARTMENT

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

I thought an overall review of the department's personnel and responsibilities would be in order for the Town Report of 1989-90. The department has a total of 25 personnel. This includes a director, secretary, two foremen and a crew of 21 men.

William Giguere,
Director of Public Works

As director I am responsible for the planning, coordinating and execution of a two million dollar plus budget. If one word were used to sum up my responsibilities, it would have to be "streets." A minimum of 75% of my work effort is related in one way or another to the construction or maintenance of streets.

Assisting me with these responsibilities is a secretary who initially handles all the telephone inquiries from the public or their "constructive criticism." Her never-ending trail of paper work consisting of payroll, implementing the purchase order system and the cost accounting program for the two million dollar plus budget makes up the bulk of her responsibilities.

The actual execution of the work load for the department is delegated to a maintenance foreman and operation foreman. The maintenance foreman is responsible for the coordinating and scheduling of repairs and maintenance of all town vehicles, Public Works, Police, Fire, School, and Rescue totaling 98 pieces of vehicles/equipment. Assisting him are five mechanics, a body/paint man, utility man and two parts men totaling 9 men.

The operation foreman is responsible for all the outside work that entails snow plowing and winter operations, street paving and repairs, drainage maintenance, operation of the demolition site and cemetery burials; he also oversees all other miscellaneous functions such as street sweeping, painting of streets with centerline and edgeline, arrows, stop lines and crosswalks, roadside mowing, maintenance of beaches, and to include any additional or special projects. To fulfill these responsibilities he has a crew of 12 men.

"The breaking out of roads in winter was always a voluntary proceeding. A substantial string of oxen would be attached to a long sled with a log chained crosswise behind and all the men and boys who could get the chance would pile on to weight down the sled and shovel away the big drifts. All desired to have a part."

Grandfather's Tales
1925, Augustus F. Moulton

Over the past several years, the department has put major emphasis on cost accountability. There have been several changes or additions to our line item budget in order to better determine and monitor the costs of any particular area of operation. Past practices have burdened this department with subsidizing the operating costs of other departments within the community. The end result of this practice has been to give the appearance that this department is more expensive to operate while other departments are less expensive to operate than they really

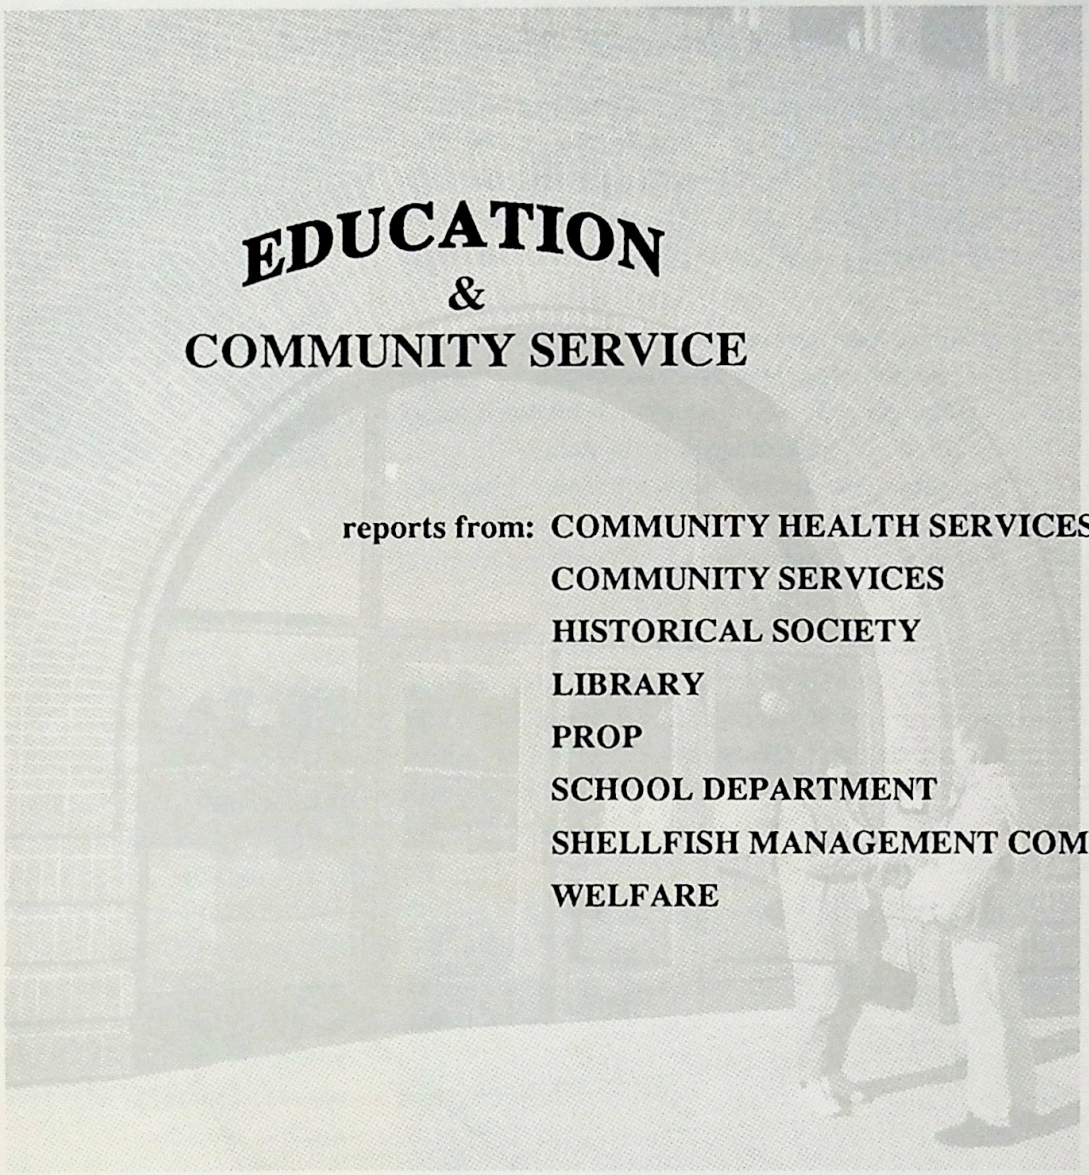
PUBLIC WORKS DEPARTMENT REPORT *continued from page 17*

are. A major change in this area is that this department is now being reimbursed for labor costs expended on vehicle maintenance for the School, Police, Fire, and Rescue Departments. This year alone those costs amounted to $89,576.00.

The department completed the carry over project located on the Nonesuch River in the Clay Pits area. The project consisted of rip-rapping approximately 400 feet of the river bank along Clay Pits Road. The project was delayed about two years due to permitting problems by DEP. The $30,000 cost should eliminate the risk of losing the road along the river. We are also well on our way in completing the reconstruction of Honan Road. The 750 foot road has been sewered, new storm drain systems installed and the Portland Water District replaced the undersized water line with a more appropriate size. The road surface itself is scheduled to be reclaimed and followed by a binder then surface coat of asphalt this summer.

Respectfully Submitted,
William D. Giguere, *Director of Public Works*



EDUCATION & COMMUNITY SERVICE

reports from: **COMMUNITY HEALTH SERVICES**
COMMUNITY SERVICES
HISTORICAL SOCIETY
LIBRARY
PROP
SCHOOL DEPARTMENT
SHELLFISH MANAGEMENT COMMISSION
WELFARE

"Each school district was a separate legal organization within the town and owned and cared for its own properties. The districts differed in population and extent. The schoolhouse was built by levying a tax upon the property within the limits of the school district, and each had its agent who engaged the teachers and cared for the school accommodations. In the absence of quick and easy communication each community was compelled to depend upon its own resources."

Grandfather's Tales, 1925, Augustus F. Moulton

Report of the SCHOOL DEPARTMENT

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

"There is significant evidence (of learning) in the honors students brought themselves, our schools and our community in spite of double sessions and the inconveniences. The point to be made is that education is broader and deeper than the subjects we learn in school. All of us in this community and neighboring communities help children build their knowledge and understanding of the world in which they live."

Shirley Grover,
Superintendent

The year began as the year ended with asbestos removal and construction. The trials and tribulations of the high school project continued. The school environment, the work of our employees and the lives of our families were disrupted. What we experienced was different, inconvenient, and challenging.

Some people say that learning is life. They believe that there is always something to learn from the experiences in our lives. In fact, they propose that we create our knowledge and understanding of the world based upon the people we meet, the things and places we see, and the work we do. For them, how well we respond to the circumstances in our lives is a measure of how much we know and how much we have yet to learn.

Life in 1989-90 was certainly an experience. Faced with the prospects of delays in the opening of school, our students, staff and families learned to deal with their own anxiety, fear, discouragement, and uncertainty as well as that of others. They felt the powerlessness of things beyond their control. They also learned about good neighbors and good families who extended themselves with offers of help. They saw community officials attempting to work together to solve problems.

Without access to the high school facility until December, students, staff and their families demonstrated their ability to adapt to unusual and demanding conditions. Middle school and high school students showed flexibility and shared classroom spaces and attended school on double sessions. Athletes and co-curricular participants displayed their level of commitment by making accommodations in their studies in order to keep up with practices and competitions.

Teachers and administrators proved their ability to pull together and demonstrated their ingenuity by finding innovative ways to prepare for teaching, to provide student support and to manage two school operations within one building. Custodians, maintenance workers and bus drivers displayed their fortitude by working long hours and tiring days. Cafeteria workers and other support staff showed their support by adjusting their work hours due to lack of work space. The love and support of families were evident to many in spite of the morning to night inconveniences.

Shirely P. Grover,
Superintendent

When December 4th arrived, we all rejoiced to be able to return to the high school and attend school on regular sessions. Although we could only use part of the high school, the newness of the classrooms and the clear promise of the new addition was exciting and gave us courage to live with a few more inconveniences for a while longer. We were genuinely thankful for our space and for the people who made it possible.

These learnings were certainly more that what is usually taught in schools. What we know and understand of the people with whom we work, study and live and those who support us, are different because of asbestos, construction and double sessions. What they value, how they work, what they can tolerate and how they cope with difficult circumstances is clearer now.

continued next page

Our learning came from the work we did singly and together in response to a trying experience.

This is not to say that students did not learn in school during the year. There is significant evidence in the honors students brought themselves, our schools and our community in spite of double sessions and the inconveniences. The point to be made is that education is broader and deeper than the subjects we learn in school. All of us in this community and neighboring communities help children build their knowledge and understanding of the world in which they live.

■ A PLAN

We continued to work on the fourth year of our five year school improvement plan. We extended the choice of educational programs through the middle school, carried out the second year of the high school restructuring projects and studied and planned for improvements in the housing of students. More interdisciplinary courses were developed and programming for students further refined.

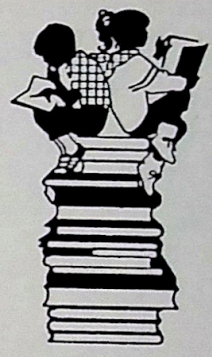
■ A REALITY

The spring brought difficult decisions. When cuts were made within the proposed school budgets, the elimination of programs and staff had to be undertaken. Our goal was to maintain the offering of a well rounded education. Efforts were made to provide for all mandated programs and to support at equitable levels the additional learning opportunities. As a result of our deliberations, teachers were released as we paired down the high school pupil/teacher ratio, supporting programs for drug and alcohol use/abuse were curtailed, support staff positions and stipends for the Board of Education were cut, release time for lead teachers was significantly altered and the monies for teaching and learning, athletics and co-curricular supplies and the purchase of computers were reduced. Also eliminated were proposed purchases of equipment such as lab tables, bus parts, musical instruments as well as the addition of new teaching positions for special services.

While other choices could have been made, the Board of Education exercised its best judgement in the interest of all the students and overall learning. The goal of this governing board and the administration was and continues to be to provide the best schooling possible within the level of support the community is willing to make.

■ STUDENT CHAMPIONSHIPS

Our students not only adapted remarkably well to the hours of double sessions, but succeeded in bringing home state championships in debate, academic decathlon, vocational education, indoor track and future problem solving. In the face of adversity our high school and middle school students displayed their abilities to adapt, work hard and succeed. For examples, participants in the Boys Indoor Track took first place in their state division and an individual student was named outstanding male track athlete for the state of Maine.



continued next page

***School Board:** (standing L to R) **Terry Messer, Camilla Barrantes, Cynthia Levesque, Cheryl Plowman;** (seated) **Shirley Grover,** Superintendent and **Susan Winch** (Chairman)*

The Academic Decathlon team regained the state championship title and two students debated and won first place in the state novice division. Two vocational high school students, one in welding and one in masonry won title of V.I.C.A. state champs and a third student was runner-up in masonry.

Middle school students joined the high school competitors in bringing recognition, pride and honor to themselves, their school and the community. The Future Problem Solving Team once again won first place in the state bowl and represented the state of Maine in the international competition in St. Louis, Missouri. The math team participated in the area state mathcount competition and won. Middle school musicians were selected to play in the 1990 Triple C honors festival. Two other students became the 1990 MADD poster contest essay winners and the Kidney Foundation of Maine recognized our middle school students for their service in helping with donor cards.

Academic Decatholon

On the elementary level, the school system's nongraded multi-age program, Grouping for Opitimal Learning Development (G.O.L.D.) was nominated by the Maine Department of Education to participate in the National Association of State Board of Education's project on early childhood education.

■ CURRICULUM

Curriculum is the life blood of teaching and learning. For that reason, it is important that what is taught be well defined and teaching resources be relevant and up to date.

The professional staff proceeded in the study and revision of the school's curriculum. Two components of the Language Arts curriculum, handwriting and spelling, were completely revised during the year. Textbooks for geography were purchased.

A curriculum development and revision process was developed and adopted as policy. Concurrently a nationally known standardized testing program was selected to measure students' achievement at key points of their learning years through the school system.

■ STAFF DEVELOPMENT

The understanding of how children learn and how the curriculum can be taught, and how learning can be assessed are also key ingredients of schooling.

The school system's staff development committee was most active during the year. Their efforts to improve teaching were not deterred by double sessions. Teachers and administrators participated in training sessions such as the writing process, scientific inquiry, math content and processes, drug and alcohol awareness, learning styles and the use of microcomputers in teaching. They also explored outcome based education and alternative ways of assessing student learning. They met with consultants from the Maine Department of Education to study the Maine State Assessment test construction and score implications for curriculum planning. Many also participated in relevant university classes, institutes, conferences and seminars outside the system.

■ GRANTS

In our steadfast efforts to seek outside financial support, we wrote and successfully received funding for a science training and leadership project and for real-life math problem solving program. Our high school teachers also gained the state's encouragement and fiscal support for their second year of a three year restructuring project.

Donations ranging from playground equipment, a reader board, score boards, fitness room equipment, a freezer, a television, a trophy case, computers and software and overhead projectors were generously made to the students by members of the community. Each member of the staff joins me in extending our appreciation on behalf of the student. Contributions such as these help us to enrich and celebrate teaching and learning activities.

■ SCHOOL FACILITIES

While much of our attention was devoted to the construction, renovation and retrofitting of the high school, we also tended to our ongoing annual work schedule of installing classroom carpets, repairing broken windows, replacing doors and painting classrooms. Additionally we replaced and structurally upgraded a portion of the Blue Point roof and removed and replaced the oil tank at Eight Corners.

A new five year major capital improvement plan was adopted to address major needs of school facilities and set major project priorities. Two portable classrooms were built for Pleasant Hill and Blue Point to provide the necessary classroom spaces for primary students and staff. Wetland and topographical surveys were authorized and conducted as a step in our continuing problem solving efforts on the K-8 housing shortage.

■ CONTRACTS

Labor negotiations were successfull as evidenced by the ratifications of multiple year contracts with the school system's social workers (2 years) and school nurse (3 years). Other collective bargaining units successfully negotiated and signed one year agreements.

■ STUDENT ENROLLMENT

While the high school enrollment was less as predicted, the elementary school enrollments climbed. The number of enrolled middle school students exceeded increased projections. As shown in the enrollment data on the following page, the school system's total number of students was approximately the same as that of the previous year.

As the housing needs of the primary level grew, additional portables were leased to accommodate the additional students. The study of the K-8 housing continued.

Overall, the 1989/90 school year can be termed an experience. The people who lived it certainly learned a great deal. The lessons were tough, but the showing of people's abilities, commitment, caring and generosity were strong and the results worth it. Not only did we gain a renewed faith in our ability to work together, solve problems and overcome adversity, but we now enjoy a new and revitalized high school facility where new experiences will bring new learning.

On behalf of the Board of Education, and the entire school system, we thank you for the beautiful high school complex and for all that you continue to do in support of learning.

What this community values, aspires, expects, supports and how it attempts to handle problems are significant contributors to the education of our children.

Respectfully submitted,
Shirley P. Grover, Ed. D.
Superintendent of Schools

Scarborough School Department

TABLE I – SCHOOL ENROLLMENTS

Report of the COMMUNITY SERVICES

July 1, 1989 to June 30, 1990

Scarborough Community Services exists as an active organization, open to continual change and responsive to the community's needs. Its purpose is to serve as a vehicle to maximize the efficient and cost effective delivery and coordination of services to the community. In addition, the Community Services office serves as a clearing house, providing information on available services and referrals to other agencies.

To the Town Manager, Town Council and Citizens of Scarborough:

The Community Services Division is governed by a Commission which consists of two members of the Town Council, two members of the Board of Education, the Town Manager and the Superintendent of Schools.

Eleanor Lockwood,
Director, Community Services

Bruce Gullifer,
Asst. Director, Community Services

COMMUNITY SERVICES RESPONSIBILITIES

- Recreation programs for children, adults and senior citizens
- Education programs for adults and children
- In-service training
- Afterschool Child Care
- Public information services
- Maintenance of school, Town and recreational grounds
- Facilities scheduling

COMMITTIES

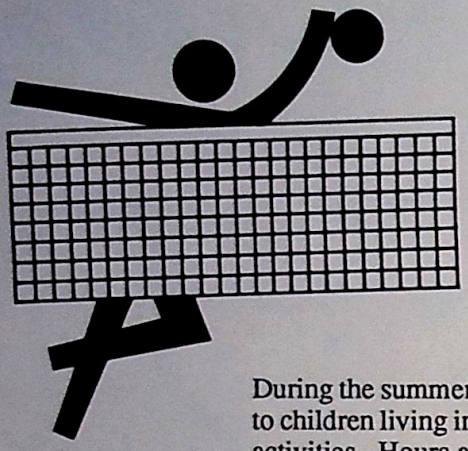
- Hunnewell House Committee
- Scarborough Harbor Committee
- Oak Hill Athletic Facility Committee
- Recreation Advisory Committee
- Old Blue Point Park Committee
- Adult Education Advisory Council
- Scarborough Cable Television Committee
- Scarborough River Committee

PROGRAM DESCRIPTIONS

❒ RECREATION

Programs are offered during the school year and during the summer months. Programs offered during the school year include:

✍ FOR CHILDREN:



PROGRAM TITLE	PARTICIPANTS
February Vacation Experience	60
April Vacation Experience	60
Learn to Ski	70
North Pole Calling	260
Easter Egg Hunt	350
Halloween Party (Co-Sponsor)	300
Youth Soccer	290
5/6 Grade Basketball	89
Boys Club Basketball	30
Winter Carnival	200
H.S. Ski Program/Shawnee Peak	27
Pee Wee Basketball Program	45
Gymnastics	30

During the summer months an extensive summer recreational program is offered to children living in Scarborough. The Extended Day Program offers a variety of activities. Hours are 7:30 a.m. to 5:00 p.m. These hours serve the needs of the working parents. The Special Events Programs are a series of different events (Funtown, Circus, Rollerskating, etc.). Some of the other activities include soccer camps, basketball clinics, swimming lessons, track and field, tennis lessons, Kinder Program, gymnastics, baseball and softball clinics. The Extended Day Program had 120 participants and the Special Events, 220.

✍ FOR ADULTS:

Recreational activities are designed to meet the various needs of adults as determined by both the Recreational Advisory Committee and input from the community.

PROGRAM TITLE	PARTICIPANTS
Aerobics	141
Ballroom Dance	57
Healthline	62
Healthline Plus	8
3/3 Basketball	180
Open Gym	156
Volleyball	150
Softball	144
Tennis Lessons	16

✍ FOR SENIOR CITIZENS:

Throughout the year, a variety of activities have been planned by Community Services to serve the Recreational needs of Senior Citizens.

PROGRAM TITLE	PARTICIPANTS
Wassamski Springs Cookout	30
Eagle Island Tour	38
Winnipesaukee Railroad Corp.	22
Winnipesaukee Cruise	48
Christmas Ride	35
Foliage Trip	38
Globe Trotters Exhibition Game	97
Ice Capades	48
Burlington Shopping Mall	32

❒ EDUCATIONAL PROGRAMS FOR ADULTS

Educational opportunities are offered to adults through a variety of programs.

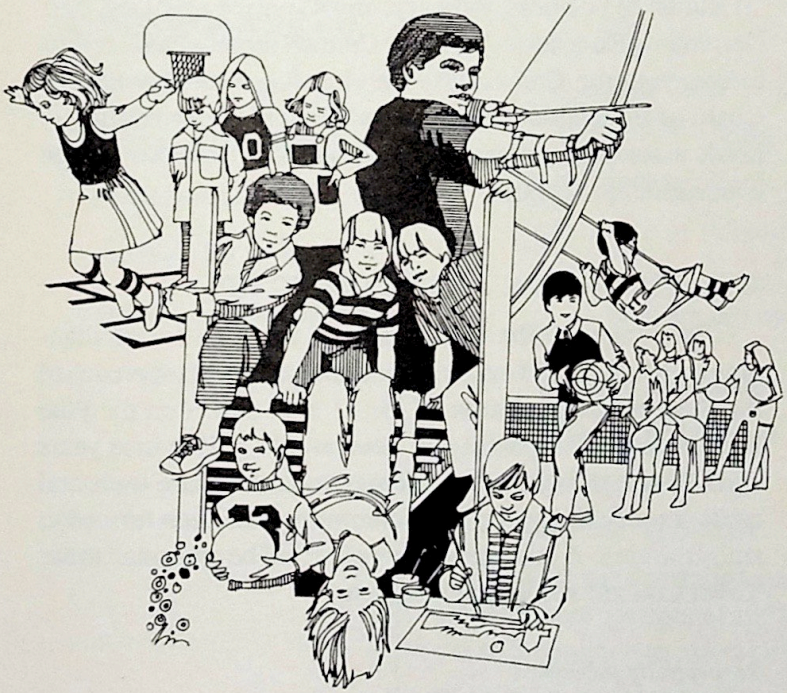
PROGRAM TITLE	PARTICIPANTS
Adult Basic Education	27
High School Diploma	31
GED Preparation/Testing	33
Vocational Courses	113
General Enrichment Courses	697

The Adult Education Program also offers support services to adults. These include tutoring, high school counseling, vocational counseling, pre-testing, basic reading program, and individual educational needs.

❒ OTHER PROGRAMS, SERVICES, AND ACTIVITIES

■ AFTERSCHOOL CHILD CARE

The AfterSchool Child Care Program continues to offer school age children a safe, well-structured and supportive environment in which to spend their after school hours while their parents are still working. The program is a dynamic one, changing with the needs and particular tastes of the children within the program. This year various clubs were started, such as cooking and sewing clubs. Forty-eight children from kindergarten through fifth grade participated through the school year.



■ PUBLIC INFORMATION SERVICES

Monthly Calendar: Community Services develops, prints and distributes a monthly calendar that includes a listing of sporting events, town meetings, town council meetings, school board meetings, and Cable special meetings. Calendar information is distributed through the Pennysaver to every household in Scarborough.

Quarterly brochures: Brochures describing recreational and adult educational programs are mailed to all Scarborough residents. The brochure also provides a means of describing specific programs in detail such as the summer recreational programs and the high school completion program. Distribution of quarterly brochure is 7,000 .

continued next page

COMMUNITY SERVICES REPORT *continued from page 27*

■ REFERRAL TO OTHER AGENCIES

Community Services has met with representatives from area social service agencies about their programs. A listing of agencies together with telephone numbers and addresses is maintained in the office to assist residents who may call for public service and welfare information. This referral list of agencies is updated through a publication provided by Greater Portland Council of Governments.

■ GROUNDS MAINTENANCE

Community Service is responsible for: mowing, aeration, fertilization, seeding, weed killing, and edging for all school grounds system-wide. Pruning, trimming, and hedging is also done system-wide. Community Services also maintains Blue Point Park and Peterson Field.

■ FACILITIES SCHEDULING

Community Services is responsible for scheduling the use of parks, fields, classrooms and gym space. Over 4,500 facilities and ballfield reservations were handled this year, an increase of over 12% from last year. Although we believe that the scheduling of facilities has improved over the last several years, the need for space is continually increasing.

■ SCARBOROUGH CABLE COMMITTEE

Community Services is responsible for the administrative support of the Scarborough Cable Committee. This support includes signing out equipment, typing and distributing minutes, purchasing of equipment, and representing the Committee before the Scarborough Community Services Commission.

■ HUNNEWELL HOUSE PRESERVATION COMMITTEE

Community Services has provided administrative support to this committee by scheduling meetings, mailing agendas, writing and distributing minutes, obtaining bids for supplies and maintenance, and purchasing equipment.

■ OAK HILL ATHLETIC FACILITY COMMITTEE

This committee was formed by the Community Services Commission in January, 1987. The committee's goals were to examine current athletic facilities and determine what additional athletic facilities Scarborough may need. The maintenance building was completed with an adjacent skating rink and warming area, under the recommendation of this committee.

■ RECREATION ADVISORY COMMITTEE

This committee was established to help with new and on-going programs and for the purpose of making recommendations to the Assistant Director for future programs.

■ OLD BLUE POINT PARK COMMITTEE

This committee was formed to help develop a comprehensive plan for the Old Blue Point Park. Through funds generated by developer contributions, we wrote and received a grant from the State for matching funds of $35,800.00. This park should be completed by the Spring of 1990.

■ CONTINUING EDUCATION ADVISORY COUNCIL

Among the goals of the Community Services Division are to serve educational needs of 1) school-age children; 2) adults; 3) business, industry, and 4) public agencies. The Continuing Education Advisory Council recommends course offerings to the Community Services Commission and the Board of Education. It has also addressed issues relating to needs assessment, program planning, and promotion of the educational programs.

■ SCARBOROUGH RIVER COMMITTEE

Working with the Department of Comprehensive Planning and the Town Manager, Community Services approached the State for the donation of the 51 acre parcel on the Pine Point Road. This parcel had been an old golf course years ago. Future plans for the area may include nature trails and cross country skiing trails. A committee has been formed to study the area. A comprehensive plan will be presented to the Town Council within the next year.

Respectfully submitted,
Eleanor Lockwood, *Director*
Bruce Gullifer, *Assistant Director*

Report of the WELFARE DEPARTMENT

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

Lucille Brochu
Welfare Director

The combining of the General Assistance Program with the other Public Assistance Programs, insurance, health and rehabilitative programs and educational services, implies an integrated use of all agencies and resources to provide for the total needs of the individual.

The concept of the total well-being of the individual includes consideration of his/her economic, physical intellectual, emotional and social self. General Assistance is part of the combined efforts of Federal, State and Local Governments and private agencies to provide financial assistance and other social and rehabilitative services to families and individuals who are unable to provide for their own needs.

Historically, the General Assistance program was designed to provide assistance to those in need. As society grew more complex, the reasons for peoples' inability to provide for their own needs grew more complex. Federal and state governments developed more sophisticated programs to deal with these needs. Categorical aid programs, such as AFDC, Food Stamps and SSDI were developed to provide a continuing form of assistance to individuals who need continuing aid. General Assistance was no longer the only assistance program .

Now that General Assistance shares its role with other categorical and special assistance programs, the role of General Assistance is not as clear as it once was. People's needs have been dichotomized. A person now has an on-going need or a short-term need. An on-going need occurs when an individual's circumstances are not expected to change for an extended period of time. A short-term need occurs usually as a result of a catastrophic event, such as being burned out, the loss of a major appliance or a temporary disabling illness or injury. The need is for a defined and specifically not lengthy period of time.

Prior to July 1, 1989, funding for the General Assistance Program came from the local property tax. On July 1, 1989, Chapter 22 M.R.S.A. § 4311 Subsection 1-B-A went into effect requiring the state to reimburse the municipalities a portion of the net general assistance cost. The chart below reflects the total expenditure for general assistance and the break down between Town and State and the number of families and persons receiving the assistance.

	1989-90	1988-89
Amount Expended	**$41,937.74**	$23,341.76
Amount of Reimbursement	**$20,968.87**	
Number of Families Assisted	**133**	89
Number of Persons Assisted	**445**	238

The above are unduplicated cases, however, some of these families did apply several times during the year.

Budget Breakdown: 1989-1990

- Rent: $28,663.00
- CMP/Heat & Lights: $1,632.89
- Rxs: $946.41
- Food/Non-Food: $7,837.69
- Fuel: $1,580.01
- Misc. (Clothes/furnishings): $1,277.74

So with the continued cooperation and support of the Town Council, Town Manager, all Departments' personnel and the efforts of private agencies, Civic and Church Organizations, we will continue to assist citizens of Scarborough whenever there is a need.

Respectfully submitted,
Lucille E. Brochu, *Welfare Director*

Report of the PUBLIC LIBRARY

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

I am proud to submit this year's annual report to the community. It is the community itself that should be commended for making this year the most significant since the library was founded ninety years ago.

" It is the community itself that should be commended for making this year the most significant since the library was founded ninety years ago.

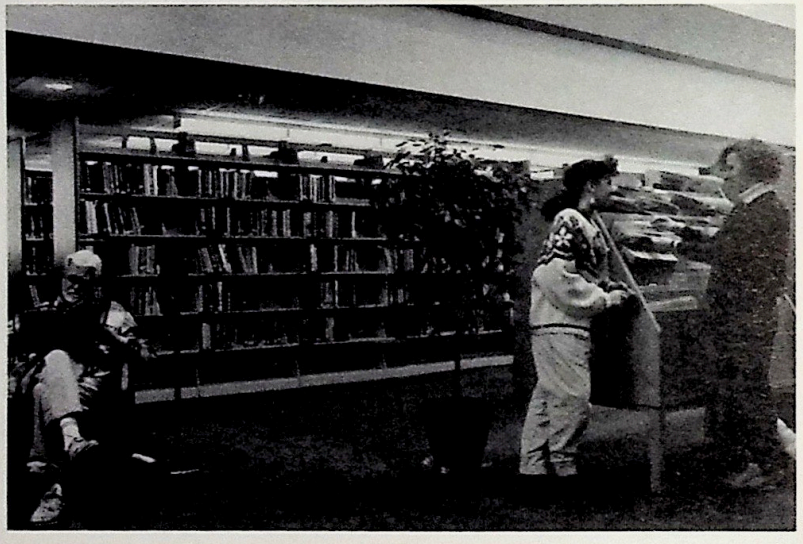
On January 28, the ribbon was cut to celebrate the opening of the new Scarborough Public Library on Gorham Road. The 12,000 square foot facility was built with a budget of $1.5 million. $600.000 was provided by the town budget and $900,000 is being raised by the Library Corporation. By the end of this year, the Capital Campaign will have raised $66,368 in contributions and pledges. The sale of the original library building on Black Point Road was completed in April and money from that transaction will be added to the campaign total.

On January 28, the ribbon was cut to celebrate the opening of the new Scarborough Public Library on Gorham Road. The 12,000 square foot facility was built with a budget of $1.5 million."

The Library Building Committee gave considerable time and expertise to ensure our community a beautiful and practical building within a conservative budget. The members of that committee were: Thomas Kuczkowski, Chairman; William Barthelman, Lloyd Anthony Black, Peter Coues, Nancy Crowell, Stephen Garvin, Grenville Jordan, Janice Peltier, Rocco Risbara, Jr., and Cynthia Milliken Taylor.

I would like to thank the many other volunteers who helped make the project a reality. Hundreds of individuals and members of clubs, service groups, youth groups, classrooms and businesses assisted with fundraising. Packing, moving and unpacking our 30,000 volume collection was done with the help of volunteers.

Nancy Crowell,
Librarian



With the new library we are able to serve the community in ways not possible before. We have space for the serious researcher, the browser, the person typing a report or the person reading the daily paper. Children have spaces to sit alone or with friends and read, hear or dream a story. We are also able to add the new electronic equipment necessary to search for and use information today.

continued next page

The improvements are being enjoyed by a record number of citizens. There were 27, 859 visits to the library, a 31% increase over last year. The number of items borrowed was 64,628 for a 22% increase. Since the library was closed nearly all of January, a comparison of February through June, 1990, with the same months of 1989 shows the magnitude of the increased use of the new library. During our first five months, we served 59% more people and checked-out 43% more materials. During the year our collection increased by 2402 items. This included books, records, audio and video tapes.

The library has completed the purchase of the "Winnebago" automated circulation and catalog system. In the coming year, we will focus on entering our book and borrower records into the system. The system will allow us to scan labels on books and library cards and it will provide a variety of reports for the user and the staff.

Finally, I want to thank the Board of Trustees and the Library staff members. This year included challenges and strains that we worked through together. That cooperation was reinforced by the community support and pride we felt around us.

Respectfully submitted,
Nancy E. Crowell, Librarian

SCARBOROUGH
PUBLIC
LIBRARY

There were 27, 859 visits to the library, a 31% increase over last year. The number of items borrowed was 64, 628 for a 22% increase.

Report of the HISTORICAL SOCIETY

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

"In 1815, the Payne road was laid out, following almost a straight course from where the Old Portland road, so-called, makes a turn to go over Scottaw's Hill and extending in direct line to the bridge at Stroudwater. It is said to have received its name from one Payne, a stage driver who took an active part in its establishment."

Grandfather's Tales, 1925, Augustus F. Moulton

This year has been a very active one for the Society. The Town Council approved our request to complete the capital improvement of the museum. This plan included replacement of our 30 year old hot air furnace, located in our meeting room, with a forced hot water heating system. The boiler of this new system is now in a separate room. The electrical system was also upgraded. A 100 amp entrance panel and 12 new duplex outlets were added. The front door was changed to swing outward. The alarm system has been installed and tied into the Engine 6 panel. Much work was done to the exterior of the museum as well. New storm windows were installed and some brick repair work was done. A section of the building is being sealed to improve waterproofing.

Scarborough Historical Society, 1916, as a substation for the Portland RR Co. Trolley Cars

We continue to experience greater use of our records by genealogists and researchers. We appreciate the referrals made by the Librarians, Town Clerk and Assessor. We also have conducted several tours for the schools and helped scouts with Eagle projects. Scout Marc Paulsen of Troop 47 was able to work with the Town Council and Elizabeth Wardsworth Chapter DAR to have May 17, 1990, declared Rufus King Day. A new sign at the Dunstan Landing Road was installed as well as a bronze plaque on the site of King's birthplace. During the Memorial Day parade, a special ceremony was conducted.

The Society is proud to have received most of the collection of records from the estate of Dorothy Shaw Libbey, the town historian. The collection contained over 30 cartons of books, town records, slides and her personal research along with the publishers' proofs of her book, ***Scarborough Becomes A Town.***

We have five to seven volunteers working at the Museum every Tuesday morning. Projects they are working on include organizing and assessing each item of the Libbey collection, as well as other new acquisitions; rearranging our maps, posters and old newspaper files for easier access; organizing our fast growing library, displaying artifacts, and helping researchers.

The Museum is open every Tuesday morning 9:00 am to 12 noon year round and by appointment. Our meetings are the first Wednesday of each month September through May, 7:30 pm at the Museum. We welcome new members and visitors and encourage donations of books, pictures, family histories and artifacts, originals as well as copies. With your support we can continue to collect and preserve our Scarborough heritage. For further information, call any of the following: Wendell Whitten, 883-6159; Anna Delaware, 883-2371; Rebecca Delaware, 883-3539.

Respectfully submitted,

Wendell Whitten, *President*;
Anna Delaware, Rebecca Delaware

Report of the COMMUNITY HEALTH SERVICES

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

Community Health Services, Inc. wishes to express its appreciation for the continued support given by the Town of Scarborough. CHS, a voluntary, non-profit United Way Agency, provides the following medical services to Scarborough residents in their homes: VISITING NURSE & HOME CARE SERVICES: Care of the Sick (Nursing & Rehabilitative Services; Supportive, Personal Care Services; Care of the Dying. Report of the PROP (PEOPLE'S REGIONAL OPPORTUNITY PROGRAM) SERVICES

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

In 1990, benefits totaling $87,028 were directly provided or referred to at least 263 Scarborough households by PROP, through such programs as Women, Infants, & Children, Child Care Food, Surplus Commodities, Temporary Housing Assistance, Dentures, Volunteer Transportation, Fuel Assistance, Energy Crisis Assistance, Weatherization, Central Heating Improvement and CMP Energy Saving programs.

A total of 62 families also received case management services, 6 families participated in our preschool child development program, and 2 families received support and training through our Family Resource Center.

PROP funding is derived from the following sources: Federal pass through monies, 74 %; Federal direct monies, 8.8%; State funds, 9.8%; Municipal/County Commissioners/United Way restricted funds, 2.8%; Municipal/County Commissioners unrestricted funds, 2.1%; Unrestricted fees, 2.5%. In addition to federal, state and local funding, PROP received donations of time, space, materials, commodities, and services totaling $682,652. and the aid of over 700 volunteers to deliver a $7,060,387 program of services to the people of Cumberland County in 1990.

Report of the
SHELLFISH MANAGEMENT COMMITTEE

July 1, 1989 to June 30, 1990

To the Town Manager, Town Council and Citizens of Scarborough:

In the summer of 1989, the Shellfish Committee grew our first million seed clams in our Tidal Nursery. This was a very successful project and we hope to continue this on a yearly basis. When fall arrived, the Committee, with the help of commercial diggers and Scarborough High School students, transplanted our one million nursery seed clams into the flats of the Scarborough River. The survival rate for these clams has been very good. We expect our first nursery clams to reach a harvestable size by the fall of 1991.

The Committee has continued to work with the Scarborough Public Schools on a number of shellfish educational programs. In the past year we were involved with both high school and elementary school students. We look forward to continuing our education programs and expanding them in the future. This year we would especially like to thank Miriam Collins, a teacher at Pleasant Hill School, for her help in organizing our presentations at the elementary schools.

The efforts of our Committee and Conservation Officer, Dick Haehnel, resulted in our first opening in the Spurwink River. Thanks mostly to our water quality program and Mr. Haehnel's excellent work, the Angel's Creek area in the Spurwink River was opened on a seasonal basis in the spring of 1990. This will be opened again on a seasonal basis every year.

The shellfish harvest the past year has been fairly steady. The winter harvest was very good and future harvest is looking slightly better than in years past.

This past year several changes were made in our Shellfish Ordinance. We hope the changes will enhance the resource in Scarborough as we continually improve our water quality and increase the shellfish population. We have an innovative program, one which is being watched closely by other shellfish producing communities.

In conclusion, the Shellfish Committee would like to thank the citizens of Scarborough for their support. We would especially like to thank Bayley's Quality Seafood, Thurlow Shellfish and the Clambake Restaurant for their support of time, materials and expertise in a number of projects both during this year and in the past. It has been a successful year and we look forward to next year.

Respectfully submitted,
Peter Angis, *Chairman, Shellfish Management Committee.*
